Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Beverly Hills Sales Claim $22.7 Million
MS65 Saints See $2020

A phenomenal pair of Early Copper sales and Gold trading on the cusp of $1,000 an ounce provided a powerful prelude to the Long Beach Expo. The Goldberg battery of Beverly Hills sales September 6-8 reeled in $22.7 million. Igniting the action on Labor Day weekend was the historic Dan Holmes collection of Large Cents anchored by the landmark $1,265,000 hammered home for the PCGS VG10 1795 Reeded Edge Cent. This sale crushed the standing record of $862,500 for any Copper coin, previously held by the NGC F12 1793 Strawberry Leaf Cent from the Stack's sale in January of this year. Lot 352 soon took over second place as the prized 1799/8 Large Cent, graded NGC MS62BN, captured an amazing $977,500. Such results leave little doubt that there is still strong demand and cavernous pockets for true rarities. Many of these coins went to established collectors, those with long-term holding plans, so it's unlikely that these extreme rarities will reappear on the market any time soon. The historic Holmes sale realized $15.2 million, and 29 of the 572 lot sale roared well into 6-figure territory. The Naftzger portion of the auction brought in over $2.7 million and, as with the Holmes sale, had a 100% sell-through rate; the Hawaii collection added another $1.4 million; and the Kelly California Fractional Gold sale was good for over $208,000. The Pre-Long Beach Wexler amassment (highlights herein) finished things off with a total of over $3 million.

Silver and Gold Commems were hard pressed at recent auctions. A 1905 Lewis & Clark Expo $1 in PCGS MS66 sold for $16,100, a good deal less than the most recent auction result of $17,250. On the Silver side, a 1936 Bridgeport, Connecticut Centennial in PCGS MS67 lost some ground as an example sold retail for $1,380. Softening Bids are the rule for Morgan Dollars as the slightly better date 1903 in NGC MS65 drops from $170 to $140. A wide range of "CC" issues in MS63-65 are among the wreckage as well. While most of the new, lower Bids are by virtue of weak price realizations at retail auction, a few of the issues actually traded on the electronic networks at the reflected lower levels.

Goldberg Pre-Long Beach Sale			Price Realized
1807/6	Draped Bust Large Cent, Lg 7	PCGS MS63RB	$18,975
1808	Classic Head Large Cent	PCGS MS62BN	$18,687
1796	Draped Bust Half Dime, Likerty	PCGS MS62	$23,000
1836	Gobrecht Dollar	PCGS PR61	$26,450
1851	$20 Liberty	PCGS MS62	$10,925
1915S	$50 Pan-Pac Round	PCGS MS65	$138,000

Mint State Type includes two increases among the ranks of Half Dollars in PCGS MS64 - the Liberty Seated, With Motto and the Barber. Ironically, on the heels of the record breaking Early Copper auctions in the Holmes and Naftzger sales, a 1797 Draped Bust Large Cent in PCGS MS64RB, from to the Nichols Hoard, went off for $16,100, resulting in a minus sign. At the same sale, a nice looking 1806 Draped Bust Half Dollar in PCGS MS62 sold for a discount, and that listing incurs a minus sign as well. Walkers hold the status quo with a mere two items undergoing a decrease to Bid, the more fashionable of the two being a 1936D in PCGS MS66. All of the downward adjustments to Buffalo Nickels fall to four issues in PCGS MS66 and one in PCGS MS65. The "biggie" in the group is the 1928D in MS66 as an example went off at auction for $2,660. Among the Mercury Dimes, the highest valued item to suffer a blow is the 1919S in PCGS MS66 falling to $725. Proof Singles are stable at current levels with the exception of a few issues. A 1939 Walker in PCGS PR66 fell to a lower level as the result of an example selling for $660 at auction. The supplemental page, which includes Early Gold Type, reflects an increase in Bid for Classic Head Quarter Eagles in NGC MS64 from $9,000 to $9,250.

Those with the mindset that the Long Beach Expo may be anticlimactic soon had other thoughts. During set-up day with Gold knocking loudly on the $1,000 door, the Long Beach bourse was buzzing for just about anything that was Gold. Several dealers busy on their computers found MS65 $20 Saints now trading sight-unseen at over $2,000 for the first time in nearly two decades. It is a greater than 60 percent increase in Bid from one year ago and the premium on Gems has certainly outpaced the increase in Gold Spot in that year. The *Bluesheet* peak of '89 saw Gem Saints at $4,075 in May of that year, quite a difference from the low of $660 in March of 2000. Overall Mint State Gold Type continues to shine with plus signs swamping the sight-unseen Bid columns in grades MS61 through MS64.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

NGC introduces Details Grading

The world's leading third-party grading service now offers Details Grading for coins with detrimental surface conditions. Any coin with surface impairments submitted to NGC will be assigned a Details Grade that accords with its level of wear and a concise description of its surface condition. During the grading process, this service is provided automatically to all applicable coins at no additional charge. Once assigned a Details Grade, coins are encapsulated in NGC's state-of-the-art holder with a distinctive purple label – and their authenticity is guaranteed. NGC Details Grading provides you with the accurate, expert descriptions you need when you are buying, selling or building the best possible collection.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective with less reflectivity than the deep mirror Prooflikes. Bids for P/L's are usually much lower than for DMPL's but command some premium over non-P/L strikes.

Philadelphia Ringing In New Show Gold On Historic Run

It has been said many times by those in the coin biz that there doesn't seem to be any let up between major shows anymore. Now, just when the west coast jet lag is over for most dealers and collectors, the numismatic caravan is set to kick into high gear for yet another cross country junket. However, this time the eastern seaboard is the destination as the inaugural Philadelphia Whitman Coin and Collectibles Expo is primed to keep the coin kingdom active September 23-26. The strategic location of the "City of Brotherly Love", as well as the substantial collector base within driving distance, should be a great draw, pulling in both the old school enthusiast as well as the eager novice. Another enticement is the two major auctions by Bowers & Merena and Stack's running in conjunction with the Expo. The B&M sale is the official pre-show event scheduled for 9/22 followed by Stack's, who will hold the official auction of the Expo, running 9/23-26. Apropos, the two feature sales are saturated with the bedrocks of American numismatics. High grade certified Colonials and early Federal fare preserved with such care would certainly make our founding fathers proud. Several highlights from each sale are previewed within our report.

Along with the Expo, talk has centered on Gold having traded and closed over a $1,000 for three consecutive days, the first time in history, with no signs of wanting to relinquish that lofty status. Silver is also on its own crusade, closing over $17 for the first time since August 4, 2008 and some 66% higher than a year ago. Several dealers have commented to us that a perfect storm is brewing with an exciting new venue and scaring hot metals. These conditions are bound to attract many spectators to the show who had been otherwise content watching from the sidelines.

Silver Commems are still suffering with 29 declines being recorded this week. Hawaiian Sesquicentennials are lower in a number of grades after no less than fifty were recently auctioned by Goldberg/Stack's. Several of the retail prices realized were below current sight-unseen Bid and can be seen in next week's Market columns. Gold Commems are not fairing much better as a number of lower Bids are seen, some as much as 7% below our last publication. Morgan Dollars are mixed, though heavier on the advances, a smattering of minus signs are present. One major market-maker is raising the bar with higher sight-unseen Bids targeting generics in MS64 and MS66 as well as a wide range of increased Bids focused on the slightly better dates. Peace Dollars share a similar fate with higher Bids in place for commoners in MS65-MS66 along with select semi-better issues in MS62-MS65. Mint State and Proof Type are mostly experiencing downward adjustments to Bid in response to the specific results from the $32 million realized last week in the surrounding Long Beach auctions. Mercury Dimes are seeing some slight action from the Big CCE Generic Market by way of increased sight-unseen Bids for PCGS MS65FB and NGC/PCGS MS66FB material. Walkers and Proof Singles are lower, with the majority of changes occurring in grades 64 through 67. $20 Saint-Gaudens are the clear winner when compared to all the other series in this report. For the fourth straight month, wide-spread increases have blanketed the Bid columns. This activity is in direct response to a higher Gold spot, now at $1,017 per ounce. Many believe that these higher precious metal prices remain as the leading reason the bull market in rare coins rages on.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity [illegible] nationally reported sight unseen Bids, Asks, Trades, prior levels and auction prices). The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Gold Spot Cools Off With A Dip
Bowers & Merena Hammer Home $2.5 Million

Although summer is officially over, there doesn't seem to be a fall headed for Philadelphia in regards to the rare coin market. In fact, before the heavily promoted Whitman Expo officially opened its doors, many convention goers got a jump-start on the action Tuesday, attending the two session Bowers & Merena pre Expo sale which raked in a solid $2.5 million. We have listed several highlights herein. As we go to press, the official, highly eclectic four-day, four-session marathon sale hosted by Stack's is underway and has brought in over $2.1 million after 2 sessions. Set-up day found considerable action brewing on both sides of the bourse aisle. Once again, anxious buyers outnumbered sellers for quality certified Type coins and key dates. Most dealers at the spacious Pennsylvania Convention Center agreed that the strength in this market is still present for eye appealing, problem-free Type and rare dates in the $500-$5,000 range.

Set-up day established solid attendance, and the buzz from many was the fact that Gold was sizzling, having been a fixture over the $1,000 benchmark, now going on nine straight days. Dealers, though still buying US Gold coins, are a bit apprehensive after this most recent close at just over $997. One major bullion dealer said he wasn't really sure where Gold was headed from here. Many veteran collectors and professionals are obviously still on the fence. A well-known east coast market-maker said that he was thrilled with the new business walking through the convention doors, stating "I've fielded serious questions from potential new customers ranging from building a specialized Type set to including Gold and Silver Eagles into IRAs." In addition to the upswing in precious metals, the Fed's decision to leave the target overnight lending rate at 0-.25% may very well have boosted interest in numismatic investments. When comparing the miniscule rate of return on conventional vehicles, many collectors feel they are better off parking some cash into carefully selected rare coins. Just one year removed from the economic collapse of global proportions, rare coins have more than weathered the storm.

Silver Commems are witness to a 6 percent increase in sight-unseen Bid for Hudson NY Sesquicentennials in MS64 to $875. On the downside, there are just a few issues, the most significant among them, Superb Gem examples of the Columbia which now lists at $365. Gold Commems see no plus signs this week, with a few issues dropping in MS61-MS65. Morgan and Peace Dollars are for the most part stable at current levels. The sale of a 1900O in NGC MS66 for $230, as seen in this week's Market column, is much less than at least one dealer's sight-unseen offer to purchase this item for $320. Meanwhile, Bid advances for examples of the 1902O in NGC MS66 holders from $250 to $270. Interestingly, the 1900O is a pop 832 coin in NGC MS66 while the 1902O is a pop 437.

Mint State Type managed to avoid a retrenchment of valuations during the most recent round of auctions apart from the Seated Liberty Quarter with Arrows Type of 1873-1874. A bright, white example of the 1874S in PCGS MS65 went off for $2,645—somewhat shy of last week's Bid. Mint State Gold Type offers some positive advances this week. The ever-popular $3 Princess rises to $2,350 for examples in NGC plastic at the MS62 plateau. $20 Saints in MS64 now command $1,600. Among the casualties are $10 Libs with Motto in PCGS MS65 now Bid at $3,830 after a 1901S sold for a discount. Buffaloes are a bit weak currently with over a half dozen declining. The 1935S in PCGS MS67 stumbled the most, now Bid at $1,970. Once again, Mercury Dimes are a hotbed of activity. Last week, sight-unseen Bid jumped to $34 for any MS66FB example. This week, Bid jumped again, now to $50, resulting in a slew of hit Bids through CCE's Big Generic Market, totaling into the mid four-figures.

Coming up next on the coin show schedule is the third installment of Coinfest in Stamford, CT, October 9-11. After an early Saturday morning breakfast seminar by John Albanese, CAC will accept up to 20 free submissions per collector. Then it's off to the Silver Dollar Expo in St. Charles, MO, October 14-17, with a live auction by Scotsman. This show is being held in conjunction with the Professional Currency Dealer Association's annual convention.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer–to–dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or [illegible] that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales–related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" – Lowest asking price during the *w*eek prior to publication (*w*eek old); "**m**" – Lowest asking price during the previous three weeks (*m*onth old); "**t**" – *T*rade during the most recent month, "**lm**" – Lowest asking price appearing *l*ast *m*onth "**lt**" *T*rade appearing *l*ast month; "**ot**" *T*rade *o*lder than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight–unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit on a sight basis.

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection — any time, anywhere.

LET CDN DO ALL THE WORK!

Save Time !
Save $$$!

Need to contact America's leading numismatic dealers? Make your advertising and postage dollars count with America's best dealer listing. The company name and numismatist sections are available for rental. Since the Directory is fully copyrighted, this is your only source for this proven list of approximately 5,000+ current names and addresses. And **current** is a promise taken seriously - the data base is updated **daily**. All for only $325 - well below the mailing industry standard of $75/thousand.

To make this offer even more attractive, labels are available in both First Class order or Presorted for Basic Bulk Rate mailings (you can save more than $900 over First Class postage rates!). Need just one state or region? Need a trial sample? Contact us for details!

2009 NUMISMATIC DEALER DIRECTORY

YES, I want to order mailing labels averaging 5,000+ names from the 2009 Numismatic Dealer Directory. I understand that my $325 fee entitles me to only one usage of these names. ____________________signature

No Fall In Autumn Market
Gold Type Softens

Fall is upon us, and as radiantly hued leaves begin to flutter to the ground, what is quite typically a quiet month in numismatics holds several important shows and auctions to keep the rare certified coin market brisk. Coinfest welcomes a throng of dealers and collectors to its third annual gala in quaint Stamford, CT October 9-11. The following week offers an opportunity to visit America's heartland for The Silver Dollar Expo and Scotsman sale, Oct 14-17, in St. Charles MO.

While the overall mood has been cautiously upbeat, the recent run up in the metals sector has left many prominent players scratching their heads and some pundits with an uneasy feeling. Gold, having played musical chairs with the $1,000 benchmark over the last few weeks, lately seems to be more comfortable in the historic new digs. Now that the buying public has accepted the four-digit metal as a reality, many of those looking to salt away a few Gold coins or add to an existing collection are balking when faced with a 37% premium over melt for run-of-the-mill MS61 Type III $20 Libs. While such premiums where gladly absorbed after the financial collapse last fall with ample supplies, today, buyers are looking for more Gold for their hard earned cash. Dealers and larger bullion players are of course still making sales, yet feel out of necessity some of the higher certified population Gold, like $20 Saints, may see premiums erode a bit more in this present climate. Conversely, other specialists feel there is still room for the true MS65 Gold slabs to expand.

The electronic trading giant CCE has reported in with a 15% decrease in the number of listed Bids and over $24 million in value in the last month, the bulk of the exodus—Gold Type. Those enjoying acceleration in Bids and listings are led by Mint State Shield Nickels, up a rousing 60% in dollar value and over a 100% charge in number of listings. Other series attracting more attention includes Mint State Seated Halves, Liberty Nickels and Classic Gold Commems.

While there are no buyers pushing the sight-unseen market higher for Silver Commems, there were only a few instances where coins sold at a discount. The Gold Commemoratives are mostly stable as well; however, the sale at auction of an example of the Octagonal Pan-Pac $50 in NGC MS63 for $54,625 necessitated an adjustment to Bid. There is a good deal of buzz surrounding the Morgan and Peace Dollar grids for coins encapsulated at the MS63 and MS64 tier. The issues involved range from solidly better date coins to generics on both sides of the aisle. Peace Dollars in MS66 were riding comfortably along at $450 until a 1923 was offered up this week on the retail market for less. The Mint State Type chart, which is void of even one upward or downward adjustment, may actually speak volumes about the present market for sight-unseen material of this nature. Though dealers are not actively Bidding any particular issues up, Bids are not down either. Mint State Gold is one of the more active charts this week as it often is. While a regular market leader, this week Mint State Gold Type takes a deep breath and blows off some steam as it turns to market laggard. The combination of escalating Gold Spot and premiums has apparently topped out. While Gold remains over $1,000 an ounce, around 1 to 1.5 percent off its most recent peak, it is clearly the *premiums* which are softening. Proof Type, including Gold, shows no signs of activity, but like Mint State Type it is not because material is not transacting. Rather, the coins that are trading are doing so at levels consistent with current sight-unseen Bid. Walking Liberty Halves in MS66 are now at $180, up $4 from last week. The inclusion of ANACS and ICG pricing in this installment is worthy of review. As pointed out last month, support for ICG coins all but went away as there is currently no major market-maker for this material. However, some higher Bids do exist for some ICG and ANACS Gold Type coins, in addition to a couple Peace Dollars.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Coinfest: A Golden Opportunity
Silver Dollars See Plus Signs

What has been a record breaking week in the sizzling metals market is currently fanning the numismatic flames, ushering in the 3rd annual Coinfest in Stamford, CT. Under the canopy of autumn's vibrant foliage, nearly everyone having trekked to the well received New England show has one particular color on their minds—Gold. Having catapulted to a new record close of $1,043 on October 7th, Gold has likely motivated curious attendees, collectors and dealers to scurry for just about anything buttery yellow in showcases. Media attention has been a phenomenal ally here, feeding the frenzy and expanding the collector base. And while last fall found many buyers in the panic mode, in regards to Certified Gold coin acquisition, this time around consumers are sure to be cruising the bourse with a gritty game face on. Precisely one year ago, with Gold trading at $878.20, premiums for generic Gold exploded. Now exactly one year later, with Gold Spot trading in record territory, those hefty premiums have eased back.

Certainly, as premiums continue to dissipate, it's more of a buyers' market this go round. Dealers we spoke with concur, saying it's great having so much business, and even though profit margins have shrunk on the more generic Gold Type, they hope to educate the newer wave of collector/investor. As Gold Spot hit an all-time intraday record high of $1,045, Type 3 $20 Libs are pushed to $1,740 in MS63. Only a few token advances are in place for Double Eagles in PCGS MS63 and MS64, and similarly miniscule adjustments to a couple of other entries is all that the Gold Type chart can muster even under these extraordinary conditions. A couple of Early Gold Types suffer a downward adjustment; in one case, it is pretty significant and indicative of the market's ability to absorb such material at present. An 1806 $5 Round Top 6, 7x6 Stars graded MS64 by NGC realized $27,600 at a recent retail auction.

The Silver Commemoratives grid includes advances to Bid for the Boone Centennial Type, where any example in MS65 will garner $110. The majority of Gold Commems have buyers at current levels, though a couple Dollars have slid back a bit including the Jefferson and Grant with Star in multiple grades. A number of better date Washington Quarters are down in this report. Most of these declines are the result of poor performances at recent retail auctions. Over one hundred increases are in place for a number of slightly better date Morgan and Peace Dollars in grades up to MS64. Most of these increases are modest, but the fact of someone taking the initiative to Bid for product, sight-unseen, is always welcome. There are a few scattered minus signs across both charts but nothing to suggest that these two bellwether series have lost any of their formidable support. Common date Prooflike Morgan Dollars have jumped in 64PL and 65PL to $82 and $180, respectively. This higher sight-unseen Bid of $180 represents as much as a 29% increase.

Collectors at Coinfest will have an opportunity to take advantage of the free consultation and appraisal of up to twenty slabbed coins by CAC. Coinfest marks the 2nd anniversary of the official introduction of the John Albanese brain child which was first unveiled to the public at the inaugural show, October 27-28, 2007. Though at its inception it was a bit of a curiosity, the little green or yellow bean sticker has become a mainstay in dealers' showcases and a collector favorite. As the metals make a beeline for a frenzied finish to 2009, another market innovation is also coming up on its 2nd birthday. The end of October marks the advent of CCE's big generic market. The bellwether in electronic trading has already surpassed $27 million in trades; nearly 90% of that total ($24.1 million) has been in Double Eagle transactions. Perhaps not a surprise, certified $20's reported in last month with over $1.4 million, the largest trading month this year, eclipsing March's tally the last time Gold visited $1,000. Next week for many, it's off to Missouri for the Silver Dollar Expo and Scotsman sale. No let up, the following week Heritage holds their feature sale in Dallas, TX of which we have listed several feature lots.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

DETAILS GRADING

The world's leading third-party grading service now offers Details Grading for coins with detrimental surface conditions. Any coin with surface impairments submitted to NGC will be assigned a Details Grade that accords with its level of wear and a concise description of its surface condition. During the grading process, this service is provided automatically to all applicable coins at no additional charge. Once assigned a Details Grade, coins are encapsulated in NGC's state-of-the-art holder with a distinctive purple label — and their authenticity is guaranteed. NGC Details Grading provides you with the accurate, expert descriptions you need when you are buying, selling or building the best possible collection.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's, but command some premium over non-P/L strikes.

Market Says "Show Me" The Way Dealers Raise $122,500 Reward After Theft

An exciting kick-off to the fall season is keeping all on the numismatic playing field running at full tilt with no timeouts. A huge contributing factor to all this action is that Gold Spot has been raging, establishing new records day after day. With Connecticut's Coinfest in the books, the coin caravan has landed in Saint Charles, MO for the Silver Dollar Expo and host auction by Scotsman. Reports from the bourse in the "Show Me State" concur that business was brisk during set-up, with notable retail and wholesale transactions taking place. Some believe that high-end conditional rarities as well as DMPLs are starting to see increased demand. Others feel that this is a perfect time to lock up some moderately priced scarcer dates and keys from virtually any series if you can find them. Most sellers on the bourse agree, original, problem-free certified coins are still bringing "good money" while average, slabbed dreck remains listless and may be drifting farther down the shaft. Collectors making the rounds were persnickety by many accounts.

Gold coins are a hot topic of course. Although premiums have eased back, a year ago at this very Expo, Gold bullion coins were commanding record premiums. Krugerands, for example, were being bought wholesale at a mighty $75 over Spot, and American Silver Eagles were flying in at $4.50 over melt. Demand for problem-free $20 Saints is roaring as MS65 slabs are seeing a $2,020 blind Bid. Further corroboration of the overall market strength can be found on the electronic trading giant CCE. In just the last two weeks, dollar value of total listed Bids has increased by over $16 million, or a solid 10% advance.

Morgan Dollars continue to sparkle as generic Gems advance and are now Bid $110 **sight-unseen**. Several specific dates that are advancing include the 1878 7 TF and the 1882CC, both in MS64, as well as the 1883CC in MS66. A handful of better date Peace Dollars are higher in lower MS grades, an indication that traditional collectors are out there in force. PCGS Mint State Type is active with eight major Types undergoing an increase in Bid. Among the movers are Flowing Hair Half Dimes in MS61-62. In MS63 we see Capped Bust Dimes, Reduced Size and Draped Bust Quarters, Heraldic Eagle increasing as well as Liberty Seated Quarters, Arrows (1854-55). As for Half Dollars, Capped Bust and Liberty Seated, No Mottos are rising in MS63, while With Mottos are up in MS64. Gold Type finally advances in an attempt to keep pace with Gold Spot's all-time intraday high of over $1,070 per ounce. Generic $20 Saint remain volatile yet the better dates of the series are stable at present levels except for the 1925S in PCGS MS63, which has been lowered slightly. A few Bids suffered declines on the SLQ chart by virtue of some recent auction activity. Franklin Half Dollars continue where they left off – which is to say that worst case certified examples continue to find ways to sell for less and less money. This month's catastrophe is the 1954D in PCGS MS66FBL which suffers a more than 20 percent decrease to its sight-unseen Bid. While Copper, Nickel and Silver Type remain stable, Proof Type shows a couple of minus signs. Specifically, the Proof Gold chart's declines are the result of a lower Asking price combined with the absence of Bids. Walkers and Buffaloes are absolutely unchanged, which tells us that while no one is finding it necessary to increase Bid to acquire inventory, neither are any dealers willing to sell them for less. Some minus signs hit the Mercury Dimes for select items, though they all Bid under $100. The downward adjustments are the result of dismal prices realized from internet auctions.

We observe a rather quiet Silver Commemoratives chart this week, in terms of activity, that is. There are no issues Bid higher and a mere two issues that squander Bid to lower levels. The two issues that lost ground in MS64 are the 1921 Missouri Centennial and the PCGS 1928 Hawaiian Sesquicentennial. Gold Commems are similarly slow with just one issue displaying a minus sign, that being the 1903 LA Purchase/McKinley in PCGS MS63.

Julian Leidman, who recently received the ANA's inaugural Harry J. Forman Dealer of the Year award for 2009, was unfortunately a victim of vehicular burglary October 11th on his return from Coinfest. Although many of the coins were raw, notable certified examples that were stolen include the following: 1921 $20 Saint, NGC MS61; 1797 Draped Bust Half Dime, 16 Stars, PCGS MS65; 1807 Draped Bust Half O-113, PCGS MS65; and an 1875 $3 J-1437 NGC PR65 Cam. The tight-knit numismatic fraternity has already come up with a $122,500 reward, which continues to rise, for the arrest and conviction of the culprit or culprits.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices. The CCDn may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels. www.cdnp-bl[illegible]s.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

STOLEN COINS
$122,500 REWARD

Silver Spring MD dealer Julian M. Leidman had his inventory stolen October 11, 2009 after attending a coin show in Stamford, CT. Over 1,000 coins, both raw and encapsulated (approximately 300), both US and Foreign; Currency from Colonial thru Small Size were taken.

There were many rare and valuable coins including:

$20 Saint-Gaudens
1920-S
1921 NGC MS61
1925-S
1927-S
1932 Unc

Gem Early Halves
1806 PCGS MS63 (PL Planchet Flaw on Reverse)
1807 PCGS MS65

Morgan Dollar
1892-O PCGS Genuine (Proof)

Many More Very Identifiable Coins

If you have any information please contact me via phone at (301) 585-8467, or cell at (301) 785-5640. If you see any unusual coins, especially in unusual places, I would be able to respond very quickly if I thought that there were any chance of involvement.

Thank You

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

CERTIFIED COIN DEALER newsletter

CCDN — a weekly report on the **Sight-Unseen** certified market published by the Coin Dealer Newsletter (est. 1963)

Vol. XXIV No. 43 October 23, 2009 Single copy price $4.00

There's No Place Like Internet
Sight-Unseen Market Soft, Yet Active

On the heels of a well attended Silver Dollar Expo in America's heartland, some dealers and collectors are taking time to regroup and strategize. Others have taken a sojourn deep in the heart of Texas for the Heritage signature auction (in progress as we go to press) taking place at the firm's Dallas office. For another segment of the collecting and buying public, the internet delivers the next best thing to being there, offering all the action of a live event without significant expense, jet lag or subjecting the car to additional wear and tear. High resolution images and real-time auction action attract many numismatists to participate on a laptop, or similar portable device in the comfort of an easy chair. Prospective buyers have instant access to current wholesale Bid, price history, detailed population reports, registry sets, pedigree/provenance and color images. What was unheard of a few years ago is becoming commonplace, in as much as dealers and collectors often tender five-figure Bids while not physically inspecting the certified coin or coins first hand. The acceptance of the popular CAC sticker has added still more stability to such purchases. This all adds up to the fact that big-ticket sales don't just happen at major shows or highly publicized venues anymore. An example? This week at a David Lawrence internet-only sale, an attractive PCGS MS62 1795 Flowing Hair Dollar, 3 Leaves variety, sold for $66,990. While still a strong price in this market, the last time this exact coin appeared, it was part of the ANA sale August 3rd 2008 where it brought $80,500. Digging a bit further, the same coin was a part of B&M's 7/14/06 sale realizing $74,750. Regardless, based on the current market, quality certified coins are still capturing solid prices.

Silver and Gold Commemoratives offer up no surprises, continuing to show a plethora of minus signs. The vast majority of issues losing ground, both Silver and Gold, are the result of lackluster performance at internet-only auctions. Morgan Dollars undergo a few trivial adjustments, both up and down, with one major exception: a whopping increase in sight-unseen Bid - from $540 to $1,200 - for a PCGS example of any 1881O graded MS64DMPL. PCGS has encapsulated 216 at this grade level, but only 5 coins have earned the Gem DMPL designation, and none have been graded higher. Last month, as seen in our Market column, an example of this coin was available for $1,995. We are observing, and have been for some time now, that "common" date CC Dollars are routinely selling at retail auction for slightly less than sight-unseen wholesale Bid. While Peace Dollars incur a few minus signs in this report, the series is stable overall, with buyers available at Bid for the majority of issues in MS60-MS65.

Mint State Type offers us only one outward indication of this market segment's status, and that is a slight tweak downward for PCGS MS62 Barber Half Dollars. The recently concluded Scotsman sale tells us that Type is extremely active, and in many cases, doing just fine. For example, a 1795 Flowing Hair Half Dime graded NGC MS62 brought $13,225. **Bluesheet** Bid for the coin in NGC is $8,500. PCGS Bid is $6,000. Since March 2007, on five occasions, a PCGS MS62 example of a 1795 Flowing Hair Half Dime has realized $12,000 or more at retail auction. Gold Type is a weird mix of ups and downs as dealers try to balance the rising price of Gold Spot with the premiums retail customers are willing to pay for MS61 thru MS64 coins. Proof Type is stable, void of any activity up or down. The Scotsman sale (and noted in the Market column) reveals that an 1874 Liberty Seated Quarter, With Arrows, graded NGC MS64 garnered $3,450 against a sight-unseen Bid of $1,800. Walking Liberty Halves are under some downward pressure for higher-grade examples in PCGS slabs on select issues struck in the late 1930s through the end of the series. A PCGS MS67 example of the 1937S came on the market just this week for $5,940, as did a 1938D in the same grade for $8,315 as reported in the Market column. Proof Singles are stable with just two declines recorded: one of them a PCGS example of the first year of issue 1936 Half Dollar, and the other an NGC 1942P Wartime Nickel.

As October winds down, some are sure to take advantage of the eclectic "Collector Series Auction" on 10-28-09, hosted by Spinks in NY City. Stack's 74th Anniversary sale, November 9-11 (highlights herein) is followed the next day by the B&M auction, both of which are a part of the Baltimore Whitman Expo, running November 10-14. Interestingly, this will be the first Stack's Anniversary sale conducted without a namesake family member at the helm.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase or that it was actually available at the time the Market price was posted Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "**w**" - Lowest asking price during the *w*eek prior to publication (week old); "**m**" - Lowest asking price during the previous three weeks (*m*onth old); "**t**" - *T*rade during the most recent month; "**lm**" - Lowest asking price appearing *l*ast *m*onth "lt" *T*rade appearing *l*ast month; "**ot**" *T*rade older than 2 months; " " a blank, for all Market prices older than two months; "**a**" for auction transactions; "**oa**" - auction older than 1 month

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder In these cases, a more accurate reflection of a coin's true value may be found in the CDN albeit, on a sight basis

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

THE 2009
NGC REGISTRY AWARDS

Awards presented for:
BEST COMPETITIVE SETS
BEST SIGNATURE SETS
BEST COLLECTORS' JOURNALS

Deadline for
set registration & journal entries:
THURSDAY, DECEMBER 10, 2009

Winners announced:
FRIDAY, JANUARY 8, 2010

We're looking for the top sets in the world — and as the largest and most inclusive registry in the hobby, NGC will see thousands of world-class sets. Make sure yours are among them!

Take the honors in one of these categories and you'll receive a personalized plaque, an icon of recognition next to your set's registry listing and up to five Deluxe PHOTO PROOF® presentations of NGC coins from your winning set. Sets must be at least 50 percent complete to be eligible.

NEW THIS YEAR! All category winners will be eligible for a grand prize — a visit to the NGC facilities in Sarasota, Florida, for a personal registry set consultation with an NGC numismatist. **To join the registry or for more information about the awards, please visit www.NGCcoin.com**

WALKING LIBERTY HALVES

If your coin will stand on its own merits regardless of the certified grade, a higher *CDN* Bid may be more indicative of current market value.

STOLEN COINS
$167,000 REWARD

Silver Spring MD dealer Julian M. Leidman had his inventory stolen October 11, 2009 after attending a coin show in Stamford, CT. Over 1,000 coins, both raw and encapsulated (approximately 300), both US and Foreign; Currency from Colonial thru Small Size were taken.

There were many rare and valuable coins including:

$20 Saint-Gaudens
1920-S
1921 NGC MS61
1925-S
1927-S
1932 Unc

Gem Early Halves
1806 PCGS MS63 (PL Planchet Flaw on Reverse)
1807 PCGS MS65

Morgan Dollar
1892-O PCGS Genuine (Proof)

Many More Very Identifiable Coins

If you have any information please contact me via phone at (301) 585-8467, or cell at (301) 785-5640. If you see any unusual coins, especially in unusual places, I would be able to respond very quickly if I thought that there were any chance of involvement.

Thank You
Julian M. Leidman

Four Figure Gold Shines Through October Mint State Type Conjures Up Higher Bids

Spirited action in the rare coin market seems to be chasing away many lingering fears as to the state of the certified coin market's health. Dealers are checking inventory levels and making last minute adjustments in preparation for the upcoming Baltimore Expo and relevant auctions. The recent Heritage signature sale confirms that buyers are not spooked, paying top dollar for top-tier certified coins, with no fewer than 32 capturing over $25K and a trio eclipsing $100K in Dallas. It certainly hasn't been a nefarious juncture as it pertains to Gold either. It was on 9/11/09 when the Golden juggernaut most recently cracked the $1,000 plateau. In fact, in all but 6 trading days since, the Midas magnet has closed well above that hallowed benchmark. As we go to press and pull the curtain down on the month, the yellow metal has stayed afloat, closing above four digits in all but the first day of October. The furnace is stoked as certified Gold sales have been blazing. Taking a closer look, the surge in the metals sector has definitely been a great ally, bringing many more viable buyers of certified material to the fold. A quick look at CCE's Big Generic Market confirms that the beat goes on. For the record, September and October mark the first time Double Eagle trades have eclipsed the million dollar mark in back-to-back months in over a year (since June and July of 2008). Perhaps of more importance, total value of visible Bids has increased. Interestingly, over the last month, we observe a 72% escalation in dollar value targeting Full Headed Standing Liberty Quarters. Not a shock to the senses, Morgan Dollars have enjoyed a near double-digit advance in total Bid value. A glaring standout is the bellwether $20 Saint-Gaudens. Quite amazingly, when considering that premiums for many $20 slabs have rolled back in the last few months, we find unprecedented demand for certified product. This key market barometer reports in nearly 40% higher in total listings and dollar assessment. Perhaps equally important for the well-being of the certified arena, Classic Gold Commems continue to attract a feisty entourage flexing some Bidding muscle. Active listings have increased by nearly 10% in the last month, yet the total dollar value of legitimate posted Bids has rocketed by nearly 70% in the last quarter for the golden coven.

There is nothing particularly surprising on the Silver Commemoratives chart this week. In most cases, those issues that went down did so in modest amounts. Slightly better date, mid-grade Morgan Dollars rise modestly as at least one prominent dealer continues to aggressively pursue material for inventory. The largest increase is for MS63 examples of the 1897S, Bid $90, which equates to a six percent jump over the previous Bid. A similar advance for the 1878 7TF in MS63 brings this issue to $75, a more than 5 percent increase. The 1894, second lowest regular issue mintage in the series, takes a serious downgrade in NGC MS64 to $5,250. Population-wise, the '94 is a very interesting issue. The numbers are 203, 207, 189 and 117 for grades MS61 to MS64, respectively. The Census then drops to 4 coins in MS65 with none graded higher. Peace Dollars show some advances for common date coins. Like the Morgans, the increases may be small, but the gesture is significant. The low end of the Mint State Type market is garnering strong support. Liberty Nickels, Three Cent Nickels, Barber Dimes, Barber Quarters, and Standing Liberty Quarters all sport plus signs in a number of columns. The Barber Quarter in MS64, treated to a 9 percent increase, is the leader among the advancers, now Bid at $360.

There was a significant offering of Proof Type at the Dallas sale. Much of it brought in excess of sight-unseen Bid, in some instances multiples of sight-unseen levels such as the 1860 NGC PR64 CAC approved Liberty Seated Quarter which realized $6,325 vs a sight-unseen Bid of $1,320. Nevertheless, a few coins did not escape the graveyard. Included in that group are a CAC PCGS PR66 1866 Shield Nickel with Rays and an NGC PR67 1883 Liberty Nickel with No Cents Reverse. The sale of a 1944S Walking Liberty Half Dollar graded MS67 by NGC is perhaps an example where ultimately it is better to let an item sell and see what it is worth - given the current market - than it is to sit on it hoping and hoping. Presumably, the coin that sold is a "worst case" example of the 5 NGC coins graded thus far at this level. It realized $5,750. In November of 2005, an NGC MS67 example sold for $9,775. Prior to that, in April of 2004, this same coin cleared over $14,000.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

1933 $20 Saints Slabbed By NGC Dealers Target NGC Type

As a seasonal chill descends over most of the country, the numismatic frontier has managed to remain pleasantly warm. Now, as we prepare to close out a wild year, an important market barometer will come courtesy of the Whitman Baltimore Coin and Collectibles Expo. Running November 12-15, many professionals and ardent hobbyists are landing in the metro D.C. area to preview lots from the official auction house, Bowers & Merena. Stack's will hold an auction in Baltimore as well, November 9-11, their 74th Anniversary sale. An additional opportunity for inventory replenishment takes place November 19-22, at the Santa Clara Coin, Stamp and Collectibles Expo. Teletrade will have coins on-site at the show for lot viewing.

Of course, all numismatists' eyes are transfixed on the yellow metal. Having already established a solid, four-figure beachhead, Gold is making headlines at every turn, ballyhooing new records virtually every trading day. Now, as the US Dollar weakens and major US banks continue to fall like dominoes, Gold is in the public spotlight as one of the best stores of value. Premiums for certified Gold, having languished a few months ago, have decidedly picked up by way of increased sight-unseen Bids. The mainstay and highly popular $20 Saints are being gobbled up on the various electronic trading networks faster than a youngster's leftover trick-or-treat stash. In fact, the always in-demand and collector friendly MS64 graded slabs are now Bid blindly at over $1,700—a new record—eclipsing the long-standing sight-unseen summit of $1,680 achieved May 12, 1989. Amazingly, as available supplies seem to have dwindled, both major grading services have designated a combined total of nearly a half million $20 Saints as MS64. Over half that total (245,903) are the true generic dates of 1924 and 1927. While certainly not scarce, this coin is very much in demand, thus the record price. On the subject of records, the fabled 1933 $20 Saint, which holds the distinction of receiving the highest price ever paid for a coin—at $7,590,020—is again making headlines. Though this piece, sold at auction in 2002, is unique as the only 1933 Double Eagle that the US Government has deemed legal to own, NGC has authenticated, graded and encapsulated the remaining known cache of 1933 $20 Saints. Currently embroiled in the midst of a lawsuit concerning ownership, the ten numismatic icons presently reside at the Fort Knox Bullion Depository in Kentucky. The NGC grade breakdown is as follows: one Unc Details, Improperly Cleaned (assumed to have been a pocket piece); six MS64s; two graded MS65; and the pinnacle of the assembly awarded MS66. This major event not only showcases the phenomenal 10 coins, but also adds numismatic legitimacy, accountability and protection for that famed group, though the coins are in museum holders which can be opened.

With Thanksgiving just a few weeks away, it is perhaps not surprising that the Pilgrim Tercentenary would see some action. Indeed, examples in PCGS MS65 and MS66 rise to the occasion. It has been an otherwise quiet week for both Gold and Silver Classic Commems, which in *Bluesheet* parlance means that there are no trades taking place below sheet level, nor is anyone stepping up to the plate and actively placing higher sight-unseen Bids. At least one dealer is attempting to flush out an 1881O DMPL Dollar or two by jumping Bid in grades MS63 thru MS65. The present Bid of $275 in MS63 DMPL is nearly a threefold increase over the previous level. The $10,000 Bid in MS65 DMPL supplants those of $6,000 and $5,250 for PCGS and NGC examples, respectively.

Mint State Type is flush with increases for NGC material. From Draped Bust Half Cents through Barber Half Dollars, around 70 listings are targeted for acquisition at higher, sight-unseen levels. Leading the charge are the Barber Dimes in MS66, now Bid sight-unseen at $725, up 16 percent from one week ago. Bidders for Mint State Gold Type are still looking to buy at ever climbing levels, with Spot at a current all-time high of $1,089. There is nary an issue to lose ground, and the number of issues on the uptick is nearly sixty. We take note in particular of the advances to $5 and $10 Indians in MS62, the very grade perhaps where the delicate balance between Spot and numismatic desirability fight for supremacy. Examples of NGC Indian Head Proof Gold Type are pushed higher for the Quarter and Half Eagles in grades PR63 through PR67 on the former and PR63 through PR66 on the latter. PCGS MS64 Walkers are actively sought at listed levels from the 1934 issue to the end of the series. We have often remarked on trades where an item was sold, regardless of the venue, for a price well below binding sight-unseen Bid, thereby leaving money on the table. Over the past few months, the number of such transactions has decreased significantly.

$100,000,000
CAC

$100 Million Milestone

CAC has passed the $100,000,000 milestone by leaps and bounds

In just a short amount of time, CAC has purchased more than $100 million of CAC verified coins from the dealer community. With that milestone now well surpassed, CAC continues to race on, seeking and purchasing stickered coins. That's because CAC strongly stands behind coins with the "green bean" as an active bidder in the market. And as CAC stickered coins gain recognition for trading at a premium, you can only imagine how fast the next milestone will be passed.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade.

It's no wonder CAC confidently purchases stickered coins. If you want to easily identify and have confidence that a coin is solid for the grade - look for the CAC verification sticker.

CERTIFIED COIN DEALER newsletter

Gold Joins $1,100 Club
Stack's Sacks Nearly $5 Million

A golden glow is shining over Baltimore, bathing attendees at the Whitman Coin and Collectibles Expo. With Spot climbing higher for eight consecutive trading days, breaking all-time record highs with each increase, the yellow metal continues to lure ever more buyers into the numismatic fold. Dealers we spoke to during set-up day were quite impressed at the highly competitive and emotional atmosphere in the convention center. The opening bell brought consistent wholesale and retail action as public and pros shuffled from table to table. One aggressive buyer said, "I'm after the *medium-rare* stuff," specifically targeting tougher dated Liberty Seated material and Early Copper under $10K. Not at all surprising, eye appealing, mid-priced certified coins, and those donning the CAC green bean, were in the cross-hairs of dealers and collectors alike. This does not imply that everything was blistering hot. The average dreck and recycled slabs that have made the rounds more often than an ER nurse remained comatose in dealers' showcases. Also capturing the attention of attendees is the PCGS TrueView service offered at the show, which has proven to be very popular. Soon, images of the PCGS Reference Grading Sets using this same high-quality photographic technology will be available for on-line viewing for 25 different series.

Stack's completed their 74th Anniversary Sale, which consisted of three sessions running November 9-11. The auction captured nearly $5 million, and we have included several of many highlights herein. Bowers & Merena, the official host auction for the Baltimore Expo, is now underway as we go to press. The buzz reverberating in the convention center, on the bourse and the auction rooms, is primarily the result of Gold and what to expect next. For some newcomers, it isn't about numismatic coins. For this crowd, acquisition of Gold in any form seems a prudent way to salvage their savings and is also a hedge which has stood the test of time against the weakening dollar. Amazingly, just one year ago, Gold Spot had fallen to $705 per ounce, the lowest trading point since September of 2007. Premiums on Gold coins were still considerable however; demand outstripped supply, and a bewildered and anxious public were maniacally throwing hefty cash premiums at virtually any Gold coin they could lay their hands on. MS62 certified $20 Saints were Bid sight-unseen at nearly 40% over melt, trading at $970. As we go to press today, Gold has closed at $1,114, and those same MS62 $20 Saints are Bid blindly at $1,540 and $1,555 for PCGS and NGC respectively. Have things really changed that much? Gold Spot has driven up 58%, and sight-unseen Bid for MS62 $20 Saints has kept par, reflecting a 60% increase, yet premiums over melt have stayed virtually the same, now at 44%. However, the chart within will shed a more explosive light on those Double Eagles graded higher. TIII $20 Libs in MS63 and MS64 are asserting their numismatic dominance over the Saint-Gaudens $20. While the Saint boasts an incredible design, the population data simply cannot be ignored. Mint State Gold Type is extremely active with some issues ratcheting up by as much as 17 percent from our last report. Early Gold Type is active as well in the AU58 to MS61 range.

Bidding activity pushes a few Silver Commemorative issues higher on the NGC side. Most notably is the Grant Memorial with Star in MS65. A $100 increase takes this popular key date to $3,600. Ten years ago, Bid was $3,900 for NGC, while PCGS Bid was at $5,700, and is at $3,700 today. Slightly better date Morgan Dollars continue to be the primary interest of the market-makers in this segment. On a percentage basis, the group leader is the 1888O in MS64, which moves up nearly 6 percent from $53 to $56. On a dollar basis, the 1883S in NGC MS62 leads the way with a $35 advance and is now Bid $760. Mint State Type certified by NGC continues its ascendancy. Capped Bust Dimes on the larger planchet, which advanced in MS63 and MS64 this week, remain in demand at current levels through MS67. NGC Three Cent Silvers, Capped Bust Half Dimes and Liberty Seated Half Dimes with Legend are also sought after at current sight-unseen Bids. Finding visible Bids for PCGS Type is much more difficult. Proof Type shows Liberty Nickels With Cents advancing in multiple grades and a couple other Silver issues increasing in select grades.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers are strictly the responsibility of the dealers and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets.
Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

AUGUST 14, 2009

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

JOHN FEIGENBAUM,
PRESIDENT

THE 2009
NGC REGISTRY AWARDS

Awards presented for:
BEST COMPETITIVE SETS
BEST SIGNATURE SETS
BEST COLLECTORS' JOURNALS
BEST WORLD SETS

Deadline for set registration & journal entries:
THURSDAY, DECEMBER 10, 2009

Winners announced:
FRIDAY, JANUARY 8, 2010

We're looking for the top sets in the world — and as the largest and most inclusive registry in the hobby, NGC will see thousands of world-class sets. Make sure yours are among them!

Take the honors in one of these categories and you'll receive a personalized plaque, an icon of recognition next to your set's registry listing and up to five Deluxe PHOTO PROOF® presentations of NGC coins from your winning set. Sets must be at least 50 percent complete to be eligible.

NEW THIS YEAR! All category winners will be eligible for a grand prize — a visit to the NGC facilities in Sarasota, Florida, for a personal registry set consultation with an NGC numismatist. **To join the registry or for more information about the awards, please visit www.NGCcoin.com/Registry**

Spot Won't Roll Over PCGS Type Coins Rally

Gold Spot has taken top billing over the last few months, cracking through the $1,000 barrier September 11, and falling below this level only a handful of times since then. In fact, since October 1, the yellow metal has carried a four-digit payload, now rolling along well over $1,100. Many Gold Bugs are now focused on the next high water mark of $1,150 Gold Spot. Many a pundit has equated this blitz to the blazing inferno that last erupted in 1979-80. While cash flow is a problem in some quarters, customer want lists for Gold coins is still lengthening daily. Buyers are again leveraging higher premiums to get their hands on problem-free, certified Gold Type. A study of CCE's Generic Big Market reveals that $20 Saints (with Motto) established record trading last week, tallying nearly half a million dollars in "spot free" coins, certifed MS62-MS65. Not a surprise, over half that total—$263,840 in trades—involved MS65 product, which is itself an all-time high.

For the more traditional hobbyist, securing a cache of problem-free, eye appealing certified Type and better dates carrying a $5K and under price tag is a challenge, but demand is there. Although there had been a dry spell, the return of mid five-figure sales and the higher echelon coins are also making a reprise. Bowers & Merena, the host auction in Baltimore, finished up with a solid 26 lots carrying well into five figures, including a quartet capturing in excess of $100K.

Most veterans in tune with the coin kingdom will recall this is supposed to be the quiet time, with distant plans being made for the annual migration south in January for the gala FUN show. But this isn't your dad's coin market. This modern, high-tech version, which has seen the bull snort and roar for most of this decade, is being embraced by new dealers getting their feet wet in the bullion market as well as computer savvy hobbyists cutting their teeth on one of the multitude of internet sales. With the clock long since thrown away, this business is open 24/7.

Silver Commemoratives were under siege in the most recent round of auctions. Most noteworthy is the 1936 Oregon Trail Memorial graded MS67 by NGC where an example sold for $345 against an unsupported Bluehseet Bid of $490. The Type coin, of course, is the 1937D with a population of 486 coins in NGC MS67. NGC's population for the 1936 in MS67 is 131 coins. Gold Commemoratives of the "Classical" era - a market segment that some dealers are predicting will undergo a renaissance of interest as the result of exploding Gold Spot prices- remain, for the most part, rather subdued. While a few declines are present as the result of squeamish auction results, the 1926 $2.50 Sesquicentennial advances in NGC MS63 and MS65. Morgan Dollars, a market segment which always has its contingent of alert and active buyers, made it through the recent auctions, for the most part, intact. DMPL Dollars, somewhat less supported than their unqualified brethren, underscore what can happen when that support is absent. An 1898S DPL graded MS65 by NGC, a population 1 coin at NGC, sold for $6,615. Overall, Peace Dollars realized prices necessitating downward adjustments to Bid, especially for NGC MS65 examples.

PCGS Mint State Type moves to the forefront this week as dealers Bid up Capped Bust Half Dollars of the Reeded Edge Type from $1,400 to $1,600 for examples graded MS63. Advances that are more modest accrue to Liberty Seated Half Dollars and Dollars, also for PCGS slabbed material. High-grade Type did suffer some defeats, especially in grades MS66 and MS67. A PCGS MS66 1837 Capped Bust Half Dollar with Reeded Edge sold for $21,850, resulting in a drop to Bluesheet Bid. The 1837, as you know, is effectively a one year Type coin (the 1836 being so much more expensive) of the Reeded Edge variety with "50 CENTS" on the Reverse. This is a PCGS pop 6 coin with 2 graded higher. Proof Type is a mixture of cautious advances and modest declines.

Of course, sellers move to the line that buyers are standing in, and that line is Mint State Gold Type where Bids are up across-the-board. A quick glance at Supplemental Page F reveals that MS65 Bid for Saint-Gaudens Double Eagles increased nearly 20 percent in one month from $2,020 to $2,420. PCGS and NGC have graded over 100,000 MS65 $20 Saints dated 1924 and 1927. By and large, Walking Liberty Half Dollars and Mercury Dimes fared pretty well in the recent sales with a number of sight-seen quality issues achieving strong prices realized. Buffalo Nickels were not so fortunate as a few four-figure NGC graded examples and one PCGS coin were sold retail for significantly discounted levels.

We are happy to report that Julian Leidman has gotten back much of his recently stolen property, some 1,700 coins and 300 Notes. After a call from an eastern dealer who wishes to remain anonymous, local police and the FBI moved in and recovered the stolen material. No details regarding exactly how this recovery took place have been reported at this time, and no arrests have been reported either. Julian expressed his deep gratitude for the help he received from the numismatic community during this ordeal. He thanked those who initiated and contributed to a reward fund that reached $167,000.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity [illegible] nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The CCDn may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an [illegible] Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are [illegible] of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases a more accurate reflection of a coin's true value may be found in the CDN albeit on a sight basis

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

Gold Type: King Of The Market
Dollars Pick Up The Pace

With a brief stop for a well-deserved holiday, most dealers have much to be thankful for this year. It was just a year ago when chaos on the world financial front left many in the numismatic world wondering what would happen to our beloved hobby. Gold, of course, was a major player then, albeit somewhat driven by the pervading panic mode. While the noble metal was flirting with the $800 level, dealers and collectors still attended shows and participated in a host of never ending auctions. Now, one year later, as we go to press on this "Black Friday" in the consumer world, no real bargains or fire sales exist in our arena. The certified coin market has sorted things out to a great degree without any real devastation. While certain market segments (Buffalo Nickels and Proof Singles) have suffered and others have leveled off (Morgans), rarities and certified coins which possess pedigree and pizzazz remain palatable with collectors and are being absorbed with very little resistance at auction or on the bourse. New blood has also given some series a jump-start in the positive direction. The resuscitation of the Classic Silver Commem market, while still a work in progress, has gone a long way in rebuilding the excitement in this beleaguered series. We are seeing fewer and fewer of these being discounted each week. In fact, this issue sees only a single decline. A closer look at this week's market column will reveal what these coins have actually been selling for at retail auctions. Gold Commems have also been firming up recently with sight-unseen buyers available for most issues in MS63 thru MS66. The centerpiece of this courageous market is Type, especially Gold Type. Those that have a supply are thankful; those that don't are scouring all venues and keeping the keyboard humming on the various electronic trading networks. While Gold Type is very strong across-the-board with many issues up over 100% from this time last year, primarily Type III $20 Libs, several issues are actually quite a bit lower than they were one year ago. Small Gold dominates the list led by $3 Indian Princesses in PCGS MS63, now Bid at $3,900, some 35% lower than a year ago.

While virtually any problem-free certified Gold coin is the hottest ticket in town, the ongoing excitement generated by the media is fostering another wave of serious inquires to the bullion bandwagon, placing this market segment front and center in the wide world of numismatics. Gold has never been as high as it is now, at an astonishing $1,160 per ounce, and for the last eight consecutive trading days, Spot has increased, setting a new record with each close. Not surprisingly, many dealers have professed having one of their most profitable years ever. Give Gold credit for keeping the numismatic furnace stoked, but keep in mind that Silver has quietly *doubled* in value since last Turkey Day. With it, the white metal is currently introducing many legitimate hobbyists to the fold; those that can't afford Gold in quantity are instead being drawn to Morgan and Peace Dollars as a starting point to numismatics. Currently, MS65 examples are at $111 and $102 respectively versus last year when both were trading at $115. Activity here has been picking up as of late, and this can be confirmed by looking at the CCE Generic Big Market. Last year, only $2,516 in generic Morgans changed hands during the entire month of November. This go 'round, over $76,939 in trades have taken place for these beloved cartwheels. Peace Dollars tell a similar story with only $110 trading in November last year compared to $10,251 so far this November.

With a lot to reflect on, dealers and eager collectors are making final plans to head to Texas, their destination being Houston to take in the last major show of 2009, that being the 53rd Annual Money Show of the Southwest Dec 3-5. Heritage acts as official auctioneer with their Signature Sale encompassing over 4,900 lots: Three floor sessions on Dec 3-4 and an internet-only venue on Dec 6. We have previewed several of the marquee lots herein.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. www.cdnpublications.com

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

MARKET LISTINGS

MARKET columns reflect the latest dealer-to-dealer selling prices seen in the market, based on monitoring Low Asks or Last Trades from *wholesale* trading networks, sell lists, [illegible] and other sources of *wholesale* transactions. Auction *prices realized* or *retail* trading information are used to adjust prices for infrequently traded issues. The Publisher warrants that it has exercised due diligence; presently, there is no practicable method of following all *wholesale* postings or transactions. Readers should be aware that there is no implied guaranty or belief that the prices listed are actually representative of the current market value of any coin; listing does not guarantee that such a coin is now available for purchase, or that it was actually available at the time the Market price was posted. Due to the volatile nature of the market, current values may be greater or less than the market price listed. A higher grade coin might display a lower Market level than a lower grade specimen, due to limited sell information. **Listing Policy**: During the thirty days prior to publication, we track the lowest sales-related price in the marketplace. Last Trade information normally takes precedence over Low Asks, except when a lower Ask is posted during the last week before publication. We delete stagnant Market prices which are lower than current Bid. Since the timeliness of the information is important, we use the following timing symbols: "w" – Lowest asking price during the week prior to publication (week old); "m" – Lowest asking price during the previous three weeks (month old); "t" – Trade during the most recent month, "lm" – Lowest asking price appearing last month; "lt" Trade appearing last month; "ot" Trade older than 2 months; " " a blank, for all Market prices older than two months; "a" for auction transactions; "oa" – auction older than 1 month.

COMMEMORATIVES

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection — any time, anywhere.

Gem Generic Dollars Continue Climb
Gold Hot In Any Holder

As we prepare to draw the curtain down on another compelling year, many major players who have kept this coin bandwagon rolling are soaking up some southern hospitality, attending the Southwest Money Show and Heritage auction. The last major venue for the year found both dealers and collectors on the bourse, anxious to scoop up desirable certified mid-price coins and anything yellow. Established collectors and those wanting to take a ride on the golden express seem to be booking passage every day. The final push found buyers of all shapes and wallet sizes scurrying from table to table much like holiday shoppers frantic to get that hard to find *gotta have toy* to put under the tree. Dealers were not shy declaring that the metals have blown down the door, and there has been an unrelenting source of business blowing their respective ways as a direct result. The down side, as in any hot market, demand has exceeded the supply, so premiums have picked up in hopes of replacing golden inventory that has been selling like hot buttered popcorn at the movies.

Gold Spot continues to triumphantly barrel ahead, closing at an astounding $1,217—yet another all-time record high. Mom and Pop shops are burning the midnight oil in a frenzied attempt to satisfy this voracious appetite. As demand erupts, CCE's Big Generic market has now seen, for the third consecutive month, well over a million dollars worth of common date Double Eagles trade. Not to forget Silver, which, now trading at over $19 per ounce, has seen demand for certified cartwheels jump. Though the white metal has nearly doubled in one year, both generic Morgan and Peace Dollars are trading blindly at nearly the same level. In fact, MS65 coins in both camps are actually Bid less now than one year ago. In the case of Peace Dollars, MS61-MS62 PCGS slabs are now listed at $16 and $17 respectively, seemingly a screaming bargain considering intrinsic value alone pegs them at $15.

After recent stability, Silver Commems are back to their old ways, once again selling for less at retail auctions as seen by the multiple minus signs. Gold Commemoratives are holding steady at current levels with a few bright spots—1903 LA/Purchase McKinley $1, which moves higher in the MS61-62 grades for PCGS and NGC examples. ANACS is seeing higher sight-unseen Bids for the $1 Grant No Star in MS63. Generic Morgans are seeing plenty of action this week with sight-unseen Bids jumping to $112 for any MS65 examples in PCGS and NGC. Dealers also need large quantities of CAC approved generic Morgans, and are willing to pay $135 for any MS65 slab with the little green bean, especially toners. The sale of an NGC MS62 example of the 1894 for $3,220 was the impetus to adjust Bid downward. The sale of an NGC MS61 example for $2,875, though Bid is left intact, is indicative of the downward pressure on this date in the lower Mint State realm.

Mint State Gold Type continues to exert a stronghold on Bidding activity. In addition to PCGS and NGC, a large number of advancing Bids are in place for the other third-party grading services including ANACS and ICG. With Gold Spot in record territory nearly every day, undoubtedly a fair amount of this material will emerge. Leading the charge this week is the $10 Indian in MS65 where NGC examples are now at $4,400. Similarly graded examples in PCGS plastic are Bid sight-unseen at $4,000. Of the 3,912 coins graded MS65 by NGC, almost exactly half (1,965) are of the 1932 issue. A similar story emerges from PCGS where the numbers are 2,039 and 985, respectively. MS64 Saint-Gaudens Double Eagles break the $2,000 barrier to $2,040 incurring a 7.4% increase from just one week ago, while Gold Spot is up nearly 5%. Sight-unseen Bid has advanced for first year of issue Walking Liberty Half Dollars: 1916, 1916D, and 1916S in grades NGC MS63 to MS66.

Bonhams just completed their Coins and Banknotes sale December 3 in New York. The 400 plus lot auction brought in a total of nearly $700,000. Following Houston, the next numismatic gatherings will be in Las Vegas, December 16-19 at the PCGS Members Only show, followed by the SoCal Coin, Currency and Jewelry show in Ontario, CA December 17-19, where a largely untapped, sizeable collecting population has just begun to see some coin show action with their inaugural gala last summer. Before this trip, both dealers and collectors would be wise to take in the Bowers & Merena Collections & Accumulations Auction. Bidding for this internet-only venue concludes at 3pm PST, Dec 14. This setting allows both collectors and dealers to preview each lot in person at the firm's Irvine, CA offices from December 10-14. With a smorgasbord of tantalizing accumulations, there is sure to be something for novice or advanced enthusiast. The 1,307 lot sale features certified and raw coins, keys and semi-keys, Mint Sets, Proof Sets, GSA Dollars, miscellaneous rolls and hoards, Gold and Silver bullion, tokens, currency and world coins. Many mixed lots comprise hundreds, even thousands of coins; true collector stuff. When the buyer takes an overview of the scope of this offering, literally tens of thousands of coins will meet the internet hammer, the vast majority without any reserves.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Who says CAC coins bring a premium?

It makes perfect sense that CAC stickered coins would trade at a premium. That is because CAC verifies previously graded coins and awards our green sticker only to those coins which meet our stringent standards for quality within their grade. After all, quality is what determines value. A CAC sticker means you can have confidence in the value of a coin.

So if you are wondering, "Do CAC coins really bring a premium?" Just listen to what the press and America's top auction companies are saying!

FOX BUSINESS NETWORK

"CAC has come along at just the right time with a seal of approval to authenticate the best of breed coins."

JIM KINGSLAND,
EDITOR

COIN VALUES, AUGUST 2008

"At recent coin shows, dealers were quoting premiums that ranged from 5 to 15 percent higher than selling prices for non-CAC approved coins. Scarce coins, and those that have spectacular eye-appeal, certified by CAC, are bringing 20 to 25 percent more than non-CAC approved coins."

MARK FERGUSON

THE COIN DEALER NEWSLETTER

"Another important issue in the current market is the solid consensus that CAC stickered coins are on an ever-growing number of dealer radar screens. Driving this relatively new, intense focus is the undeniable fact that collectors are acutely aware of the difference in value that often exists between a CAC versus a non-CAC coin. From a bottom line perspective, this situation can't be ignored, regardless of one's personal opinion of the little green bean."

IRA AND LARRY GOLDBERG AUCTIONEERS

"It is very simple, CAC coins bring premiums!"

LARRY GOLDBERG

STACK'S

"Many of our clients here at Stack's are very enthusiastic about the Certified Acceptance Corporation review of PCGS and NGC coins and your confirmation of quality beyond the stated grading number. In fact, we have had so much demand for CAC labeled coins that we recently modified our website search engine to facilitate bidders finding CAC coins in our upcoming auctions. I congratulate you on your well-deserved success and the great contribution CAC is making to numismatics."

Q. DAVID BOWERS,
CHAIRMAN

BOWERS AND MERENA AUCTIONS

"CAC coins continue to bring strong prices in our auctions. More and more collectors are asking for the "green bean"."

STEVE DEEDS,
PRESIDENT

HERITAGE AUCTION GALLERIES

"CAC coins tend to attract more bidders, and almost always realize premium prices in our auctions."

TODD IMHOF,
EXECUTIVE VICE PRESIDENT

DLRC AUCTIONS

"As an Internet-based coin auction company, we have seen a distinct advantage to CAC-approved coins over their non-stickered counterparts. I think that the sticker is especially helpful in giving bidders added security that they are going to get a high quality coin for the grade. Greater confidence equal more bids, plain and simple."

A Holiday Gift Of Gold
Superb Commems Down For The Decade

Although the weather was so cold that it snowed in Houston last week, those attending the Southwest Money Show in the Lone Star State were greeted with a warm reception. True, average Type material, low-end, unattractive and problem slabs languished; yet eye-appealing keys, pedigreed coins and anything Gold was blistering hot on the bourse. And while Spot has fallen to levels from roughly four weeks ago, currently at $1,120, the power of the yellow metal remains a prosperous anchor leg as 2009 winds down. Another key barometer of the current state of the market was delivered through the show's host auction by Heritage, reeling in $9.35 million, and boasting a nearly 95% sell-through rate. While not a single item in the 4,980-lot sale commanded six figures, the auction did feature an impressive 51 lots hammering home in excess of $20K. Reports out of Houston maintained that Gold coins were hot, and the auction confirmed that paradigm. For example, twelve 1904 TIII $20 Libs realized in excess of $5,000. Also, Proof Gold performed very well at the sale. Conversely, Mint State Gold Type is under some downward pressure as prices realized for select coins make it necessary to adjust Bids downward. In spite of this, a big boost confirming the yellow metal's strength is found in Early Gold Type. Numerous plus signs pepper the charts, especially targeting $2½ and $5 Classic Head Type coins. Without a doubt, Gold, in any plastic, remains the hottest ticket on the electronic trading networks. As we go to press, CCE's Big Generic Market has roared over the $30 million mark since its inception in November of 2007. Not a surprise, nearly 90% of that action is courtesy of Double Eagle trades, which are well on the path to eclipse over a million dollars in trades for the fourth consecutive month. The **CCDn Market Index** one year ago reported in at 928.47; as we go to press, we stand at 937.68, primarily on the strength of, in order, Gold Type, Mint State Type and Morgan Dollars.

Common date Gem Morgan Dollars get another slight boost and are now Bid $113 sight-unseen. Generic Peace Dollars also advanced in MS65 to $105. We are seeing a significant increase in the number of trades involving quantities of common date Peace and Morgan Dollars in MS65 at these mildly elevated levels. Mint State Type is experiencing some declines spread between PCGS and NGC material. The largest drop from last week, at nearly 20%, goes to the Liberty Seated Quarter with Arrows (1873-1874) as the result of an NGC MS67 example selling for $8,050. An example of the Grant Memorial Half with Star, a population 7 coin in NGC MS67, realized $21,850 at the recent Heritage sale, which has prompted a downward adjustment to Bid. A few other higher dollar issues, including the 1921 Missouri 2X4 in PCGS MS66 and NGC MS65, incur minus signs owing to recent auction price realizations. To put this market segment into perspective, we note that the Grant Memorial with Star in MS67 was Bid $40,000 ten years ago, suffering a roughly 50% decline in that time. The Missouri 2X4 in PCGS MS66 was Bid $7,900 ten years ago, on the order of a 24% decline to today's price. Interestingly, the NGC MS65 Missouri 2X4 is down from a Bid of $2,300 ten years ago, a much more modest 13% decline. See the chart of the ten worst performing Silver Commems over the last decade herein.

PCGS has announced that they will no longer guarantee color attributions on Copper coins. Part of this decision is based on the fact that they've paid out nearly $4 million in grading mistakes through buybacks within the last five years. After having graded some 400,000 Copper coins as Red, PCGS has decided that they will no longer be responsible for Copper color changes that are beyond their control from doctoring and climate issues, especially humidity. PCGS graded Copper coins one already owns, and those graded or purchased prior to 2010 will maintain their lifetime guarantee. NGC so far is retaining *their* guarantee on such material which expires 10 years from the slab date.

While many dealers plan to wind down for the holidays with their families, others have already booked passage for the final major event of the year in Las Vegas for the PCGS Members Only show, December 16-19. Dealers will also attempt to parlay what they hope will be a winning hand in Sin City with the second installment of the SoCal Coin, Currency & Jewelry Show in Ontario, CA scheduled for December 17-19.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services determined through careful study of market activity [illegible] nationally reported sight unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. CCDn uses every means available to insure accuracy and completeness of the **wholesale** levels shown. Individual buy and sell prices will vary among dealers and are [illegible] of the dealers, and may fluctuate according to needs. CCDn does not represent that it is possible to purchase selected coins at Bid levels.

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

To a Coin Collector, Confidence is Priceless

Everyone wants to be confident about the quality of a coin. When it's a CAC-verified coin, you can trade with confidence.

Whether you're a novice or advanced collector, you know that quality is what determines the value of a rare coin. The problem is, within any certified coin grade, not all coins are "solid" quality coins. Now there's an easy way to identify coins that are solid for the grade - just look for the CAC verification sticker.

CAC verifies previously graded coins and awards our green sticker only to those coins which meet our high standards for quality within their grade. What's more, CAC is a powerful market maker for CAC verified coins. In fact, CAC has recently purchased over $100,000,000 worth of CAC verified coins.

Want confidence in the value of a coin? Look for the CAC sticker.

PROOFLIKE MORGAN DOLLARS

P/L Dollars may be semi-reflective, with less reflectivity than the deep mirror Prooflike. Bids for P/L's are usually much lower than for DMPL's but command some premium over non-P/L strikes.

Winter FUN On The Horizon
Happy Holidays—Last Issue Of 2009

This is the last issue of the *CCDN* for 2009. Have a safe, happy and healthy holiday season. Our next issue will be published January 1, 2010.

As we prepare to draw the curtain down on a roller-coaster like year, many are taking some well deserved time off to enjoy the holiday season. Yet for those who call this "hobby of kings" their profession and livelihood, only a brief time will be set aside for holiday cheer, and then it's back to compiling want lists, off-loading stagnant slabs and strategizing for the highly anticipated 2010 kick-off in Florida. Major players and avid collectors have already booked passage for the Sunshine State to attend the 55th Annual FUN Convention. Some arriving in Orlando will take in the "First Show" January 3-5, featuring an auction by Bowers & Merena. Then it's off to the FUN extravaganza January 7-10. This first major expo along with Heritage's signature sale is a time-tested barometer for the numismatic market.

While 2009 saw its fair share of market corrections and ongoing metal mania, there were still enough individual high-powered sales to keep the buzz sustained throughout the year. Several certified numismatic icons roared well into the million dollar club, led by what many refer to as the "King", the 1804 Dollar. A Class 3 (Adams-Carter) PCGS PR58 specimen met a hammer for $2.3 million at the Central States auction in April. Several of the premier offerings from the 6,545-lot Heritage FUN auction (previewed herein) certainly have the legs to break well into that elite million dollar club, most notably, the famous "Hawaii Five-0" 1913 Liberty Nickel, graded NGC PR64, CAC.

A bit of a surprise this close to the holidays, trading activity is unexpectedly up-tempo as the electronic networks are buzzing along. A review of CCE reveals that since our last report, total viable listings on the exchange have increased by 19%, and the total value of posted Bids has skyrocketed by nearly $22 million. Buyers seeking Gold coins is the main reason for the up-tick. Perhaps those that are being targeted are not as one would expect: While $20 Saints are experiencing minor escalation in action, Liberty Head Quarter and Half Eagles are stealing the show, responsible for nearly 90% of the new action.

Turning our attention to Silver Commemoratives, the ever desirable 1928 Hawaiian Sesquicentennial is pushed to $2,700 from $2,350 in PCGS MS64, while a much more modest $20 increase adheres to NGC MS62 examples of the 1922 Grant with Star. Otherwise, this market segment, including Gold Commems, remains stable at current levels.

Common date Gem Morgan Dollars get another slight boost and are now Bid $114 sight-unseen. Downward adjustments are trivial in dollar amounts, the largest being an $18 slide accruing to PCGS MS64 examples of the 1881O. For the last several weeks, trading levels on the electronic networks have been increasing, especially for Morgan Dollars. Indeed, the trading week 12/7 to 12/11 was the strongest of the year for Generic Morgan Dollars graded MS63 to MS67 on CCE's Generic Big Market. To put this increased activity into perspective, the amount of MS63 Generic Morgan Dollars traded last week was the highest on record since the inception of the Big Market over two years ago.

Mint State and Proof Type remain mostly stable overall for Copper, Nickel and Silver. The only noteworthy adjustment was for Capped Bust Quarters, Large Size, which advanced to $6,500 for PCGS examples in MS64. This represents a solid 8% jump from last week. Mint State Gold Type, which has been a predominant driving force in the market since Gold Spot surpassed and stayed above the $1,000 level in early October, shows some mixed results this week. Gold has come off its world record high of $1,217.40. Nevertheless, with Spot back near $1,100, there is still strong interest in select issues. $2.50 Indians move up an impressive 10 percent to $1,210 for PCGS MS64 slabs, while NGC examples scoot up to $1,250 from $1,175.

Numerous adjustments to Standing Liberty Quarters have taken place. The sale of a 1916 in PCGS MS63 prompted us to adjust Bid downward by $500 or roughly 4 percent. Perhaps even more significant are the hits suffered by a few other issues like the 1917S TI in PCGS MS67 which dropped to $3,375. Though not nearly as dramatic as in past months, a few Franklins continue down the slippery slope. Dated Saint-Gaudens undergo no substantial changes to any of the high dollar rarities, only a slight tweak to the 1925S in MS63, where an example of this low pop coin persists on the market at ever lower levels in search of a buyer.

The **Certified Coin Dealer newsletter** (the *Bluesheet*) reports current **wholesale** market Bids for coins certified by the most active grading services, determined through careful study of market activity (including the highest nationally reported sight-unseen Bids, Asks, Trades, prior levels, and auction prices). The **CCDn** may not respond to the removal of a high Bid, but will be strongly influenced by the lowering of an unsupported high Bid or by Asks or Trades which are near or below current Bid. **CCDn** uses every means available to insure accuracy and completeness of the **wholesale** levels shown Individual buy and sell prices will vary among dealers, are strictly the responsibility of the dealers, and may fluctuate according to needs. **CCDn** does not represent that it is possible to purchase selected coins at Bid levels. *www.cdnpublications.com*

Certification does not guarantee protection against the normal risks associated with potentially volatile markets. Client or sight-seen sales may command a substantial premium above *Bluesheet* Dealer-to-Dealer Bids.

Some bids within represent very conservative sight-unseen buy prices on the part of the highest visible bidder. In these cases, a more accurate reflection of a coin's true value may be found in the CDN, albeit, on a sight basis.

Greatest Gold Mine of Coin Data - Yours FREE!

CAC's POP Report puts all the data you need at your fingertips

CAC-stickered coins give you confidence. That's because we verify previously graded coins and award our green sticker only to those that are at minimum "solid" within their grade. Data for each of the stickered-coins is maintained in an elaborate online database, where you can easily verify any CAC coin.

Now, all of the data is compiled in CAC's Population Report – an absolute "must have" if you are active in today's rare coin market. Novices and advanced collectors alike can now access up-to-date, comprehensive data on all CAC-stickered coins, free of charge, by visiting our website at www.caccoin.com.

It's easy to identify coins that are solid for the grade - just look for the CAC verification sticker. And now there's an easy way to access a gold mine of CAC coin data, the FREE CAC POP report.

Security Made Simple

NGC's tamper-evident holders and state-of-the-art holograms have become the symbol of protection for your most treasured coins. And now, the world's most preferred third-party grading service empowers collectors and dealers with an innovative, user-friendly security feature: NGC online verification.

By entering the unique NGC serial number on a coin's label, you'll access everything you need to be sure a certified coin is authentic. Enlargeable images of the coin, captured by NGC before it was shipped, are displayed alongside attribution and grade information from NGC's own secure database. It's complete protection for you and your coins — any time you buy or sell, anywhere the hobby takes you.
